

# Fox bait distribution days for the Lower and Mid North

Landholders in Lower and Mid North District are encouraged to register for the upcoming 1080 fox bait distribution days. Foxes are a significant pest and have a large impact on agriculture and the environment through predation, spread of weeds and spread of diseases. These distribution days aim to maximise the positive benefits of fox control through a coordinated approach across the landscape.

Fox baits will be provided for collection across eight sites over three days to registered landholders at a discounted rate.
